

Working as a Group Write Answers to These Questions

Where appropriate, use quotes from the resources you have reviewed to learn about usability testing:

1. Our textbook
2. Jacob Nielson
3. The UT Austin website

(Look in responses from this week's Discussion Board Exploration for assistance with these answers too.)

- 1) What is Usability Testing? (give me a one or two sentence definition; definitely quote a source or two)
- 2) What is the purpose of Usability Testing? Why use it? What benefit does provide?
- 3) What particular objectives do you hope to achieve with your own usability testing?
 1. Offer a general description and summary of the procedures for Usability Testing. Describe the pre-test activities (this will include a short definition of Think Aloud Protocol and why it is used)
 2. Describe what scenarios and task-based questions are.
 3. Describe the post-test activities (i.e. Exit Questions)

Start your description with this line:

“Usability Tests involve the following procedures. First, they start with...
